Al Khaleejiah Al Wataniah Tr. Agents together with its sister companies, Maha Al Jazeerah Trading (Sharjah) and Maha Al Jazeerah Technical Services (Dubai) obtained a full certification of International Standards such as ISO 14001, ISO 9001 and OSHAS 18001.

INTRODUCTION

Established in 2000, AL Khaleejiah Al Wataniah Tr. Agents is an ISO 9001:2015 and ISO 45001:2018 certified engineering company and a trusted supplier and service provider specializing in petroleum equipment and maintenance solutions for the petroleum, oil, and gas distribution industry. With over two decades of experience, we have built a strong reputation for delivering high-quality products, reliable technical support, and efficient maintenance services to fuel distribution companies and energy sector clients.

Our expertise covers the supply, installation, inspection, repair, and maintenance of a wide range of petroleum handling and fuel distribution equipment. Driven by industry expertise and a commitment to excellence, we serve a diverse range of industries, including petroleum distribution companies, railway sectors, and generator systems in commercial buildings, data centers, and aviation, marine, and construction companies.

We deliver superior equipment, innovative solutions, and exceptional client service at highly competitive prices, helping our clients maintain safe, reliable, and efficient operations. Through our commitment to quality, safety, and customer satisfaction, we have successfully supported numerous organizations in achieving operational excellence and regulatory compliance.

As an ISO 9001:2015 and ISO 45001:2018 certified organization, we are committed to maintaining the highest standards of quality management, occupational health, safety, and continuous improvement in all our operations.

At AL Khaleejiah Al Wataniah Tr. Agents, we continue to be a trusted partner for petroleum equipment supply, technical services, and maintenance solutions across the region.

FUEL POLISHING EQUIPMENT

FiltaSolid

FiltaSolid filter elements remove particulates from your fuel. The 800, 900 and 999 series offer 80.0%, 90.0% and 99.9% efficiency on particles between 1 and 800µm (microns).

FiltaSorb

FiltaSorb filter elements deliver unbeatable performance in water absorption. FiltaSorb cells also remove solid particulates down to 1µm (micron).

DieselCheck

The DieselCheck portable diesel analyser quickly, accurately and economically checks a sample's water and particulate content and fuel density.

DDF1

The DDF1 is our entry-level on-tank fuel polishing cabinet, capable of processing a 2,000 litre tank in 40 minutes and offering high flow rates of 50lpm.
